TROPHIES2GO.COM – FOR THE  
RECOGNITION YOU DESERVE!

## WE SUPPORT U.S.-MADE ECO-FRIENDLY PRODUCTS!

Unless you've been living under a mountain sized rock somewhere in Booneville, we assume you're well aware of the economic conditions our country is faced with at the moment. Hard working people losing jobs, losing homes and losing confidence seems to make the front page day in and day out. Nevertheless, we at Trophies2Go feel fortunate to remain prosperous throughout the harsh economic elements. Keeping business in America seems to have fallen by the wayside.

**"GLOBAL HAS GONE TOO FAR"**

– Jeff Anderson, Owner

Trophies2Go does our part every day to make our country the force that it always has been in years prior. By keeping business in the U.S as much as

possible, we boost the financial situation and offer top-notch quality that is virtually unmatched anywhere else around the globe.

At Trophies2Go we make a conscious effort to select eco-friendly products that offer our customers awards and trophies of the highest quality possible. The Chocolate Cherry Eco-Plaque is definitely one of those products that fall under that category. Crafted from solid American Cherry wood and harvested from a sustainable forest, this plaque has a hand rubbed furniture finish that makes it one of the best in the industry. Enjoy a sleek black engraving plate with a gold Florentine border. Environmental friendly and better for the economy, this plaque has no formaldehyde added and is produced locally; using lean manufacturing. Not that you'd ever throw it away – but if you did – this plaque is 100% recyclable. Made right here in the United States, the Chocolate Cherry Eco-Plaque is the perfect accolade for a very special occasion!

# CUSTOMER HIGHLIGHT: H & R BLOCK

Although tax season is now behind us, we'd like to shine the spotlight on our great customers – H & R Block of Indiana. They have become a much appreciated customer over the past couple of years, ordering the Made in USA Acrylic Ice Block Award to celebrate success. The Acrylic Ice Block Award is 1½" thick; with jagged ice-like edges. Of note: H & R Block has taken advantage of the special shipping services we offer in circumstances where multiple locations are needed. This is just one way Trophies2Go stands apart to make life a bit easier for our customers. The Acrylic Ice Block Award is one of our most popular and impressive awards that will keep your employees cooled off and feeling good all summer, as we prepare those long awaited sunny days ahead. Thank you H & R Block - for being a valued customer. We look forward to continue to melt away the tax blues for your employees with the Acrylic Ice Block Award!

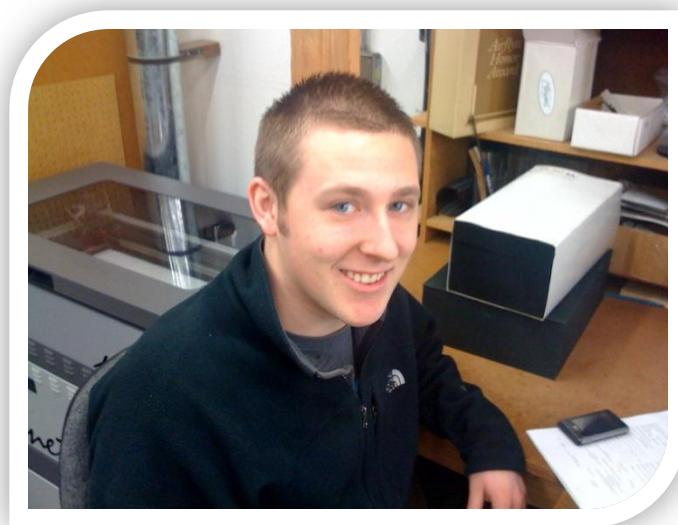

***Thick Acrylic Ice Block Award will melt your heart!***

## EMPLOYEE SPOTLIGHT: RYAN BREEZEE LASER ENGRAVER

Good work ethic runs in the Breezee family! In the spring issue we featured Donna, but we are also lucky to have her older brother Ryan here at Trophies2Go. Ryan truly has laser engraving MOJO and natural talent. That, plus his hard working 'Get it Done' attitude, makes him a much appreciated employee. Depending on his college schedule, Ryan works 15-30 hours per week and does a lot of the programming for laser engraving. Ryan provides us with the proof and alters the logos, among other things. Since he's only 21, we can only imagine what Ryan will be able to tackle after college! But for right now we know that he is an unbelievable worker and we are thankful to have him here. Thank you, Ryan. Keep up the phenomenal work!
